OBJECTIVE

Third-year Computer Science (CSE) undergraduate building a strong foundation in Python, data structures, and applied software development, with a focused long-term goal of working in artificial intelligence / machine learning. Seeking internship and project opportunities to apply programming and problem-solving skills to real-world systems.

EDUCATION

B.Tech, Computer Science and Engineering
Seshadri Rao Gudlavalleru Engineering College, Gudlavalleru, Andhra Pradesh
Currently in 3rd Year (Expected Graduation: 2027)

TECHNICAL SKILLS

Programming Languages: Python, C, Java
Web Technologies: HTML, CSS, JavaScript
Databases: MySQL, SQL Server, SQLite, DBMS Concepts
Tools & Frameworks: VS Code, Streamlit, Git
Currently Learning: Data Structures and Algorithms (Python)

PROJECTS

Credit Card Approval Prediction System | *Python, HTML, JavaScript, SQLite*
GitHub: github.com/NARASIMHA5182/CreditCardApproval

- Built a system to process applicant data and predict credit card approval outcomes using Python for the backend logic.
- Designed the front-end interface with HTML and JavaScript and used SQLite for persistent data storage.
- Implemented data validation and structured input handling to simulate a real-world approval workflow.

College Hostel Management System | *Python, Streamlit, SQL Server*

- Developed a hostel management application with Streamlit for an interactive, web-based user interface.
- Designed and integrated an SQL Server database to manage student, room, and allocation records.
- Built modules for record management to streamline day-to-day hostel administration tasks.

CERTIFICATIONS & ACHIEVEMENTS

- **ATF 2025 (All India Talent/Coding Examination)** – Qualified to Stage 2

ADDITIONAL SKILLS

- Communication Skills
- Presentation Skills
- Problem Solving & Analytical Thinking
- Team Collaboration
